Treasury's G-Invoicing Mandate

GPO G-Invoicing Implementation Team

Joann Sharp

How will G-Invoicing impact working with GPO?

- Beginning October 1, 2022 (FY23), all orders placed with GPO, that are being paid through IPAC, will require an approved GT&C and Order in the G-Invoicing system.
- GPO will still require customers to furnish traditional order forms for all printing and publishing services (i.e. SF-1, 2511, etc.).
- Refer to [**Circular Letter No. 1057: G-Invoicing - Information for U.S. Government Publishing Office \(GPO\) Customers**](#) for more information.
- GPO is actively working internally and with Treasury's Bureau of Fiscal Service to ensure the transition to G-Invoicing is as smooth and flexible as possible for GPO customers.
- Treasury's Official G-Invoicing Website: <https://fiscal.treasury.gov/g-invoice/>

What should you do between now and October 2022?

- Talk with your agency's G-Invoicing Planning and Implementation Team to understand how your agency will be adopting this new platform.
 - If you require assistance identifying your agency's POC, you can send an email to:
 - Treasury Fiscal Service Team: IGT@fiscal.treasury.gov or
 - GPO Team: ginv@gpo.gov
- Look out for G-Invoicing Circular Letters that you can share internally with all personnel involved in ordering, obligating funds, and authorizing payments for services and products obtained from GPO.
 - To subscribe e-mail circulars@gpo.gov and include your name and the name of your agency in the body of your e-mail.
- Contact the GPO Implementation Team at GINV@gpo.gov if you have questions, concerns, or would like to meet to discuss how we can work together.
- GPO will continue providing updates when additional information regarding the mandate of G-Invoicing becomes available.
